

FOR IMMEDIATE RELEASE CONTACT: Wayne Blasius
April 27, 2000 865.637.1925
(Mobile) 865.607.5507

Our Philosophy:

- we are honored to have been granted trust of community to undertake important projects;
- we believe our success and the trust we have earned come from:
 1. solid foundation/business plan - being faithful to our Vision and Mission
 2. keeping our word to customers/associates
 3. "never forgetting we are part of community"

How Denark-Smith is different from this industry:

- we are very focused on Innovation in several ways:
 1. we have always advocated and practiced Design-Build and other collaborative delivery methods (UT Symposium is example);
 2. we are always looking for better building means and methods;
 3. and more importantly - we are committed to excellent relationships with employees (superior pay and benefits) and business associates
 4. and our belief in and approach to "giving back"
